Details:

Under construction in an absolutely unique location in the south of Tenerife, these enchanting villas offer modern architecture embedded in impressive natural countryside.

They are situated in the highest part of the imposing area of Roque del Conde from where one of the most beautiful sea views on the island can be enjoyed, and each villa is designed so that there are fantastic views from both the living room and the bedrooms. At the rear of the properties is the famous Roque del Conde with a wonderful mountain landscape which conveys a feeling of tranquillity and seclusion, in spite of the fact that you are only a few minutes away from the lively beach.

The 16 building plots vary from 1000 to 1500 sqm, and all villas have an infinity pool and a modern, fully-equipped kitchen.

The developers, Andreas & Partner, are known for their innovative new building projects, and every project is planned paying great attention to detail and to the geographical characteristics of the area. The cooperation between teams of local and international architects and construction specialists makes this particular project particularly interesting - here modern design and southern flair is cleverly combined with north-European quality standards.
